44. SMALL BUSINESS/DISABLED VETERAN BUSINESS ENTERPRISE PARTICIPATION

The small business (SB) and disabled veteran business enterprise (DVBE) certifications and percentages for the Contractor(s) and subcontractor(s) are listed below. State departments can verify that the certifications are currently valid at the following website:

This contract contains a 25% DVBE participation requirement for combined total dollars for specific services (value-added services) only. Those services include:

Proprietary service sales do not pertain to the 25% requirement, unless otherwise specified by the Contractor.

Ordering agencies must verify the participation amount with the Contractor. The exact participation percentage levels for each purchase order will be determined on an order-by-order basis in cooperation with the Contractor prior to submittal of a Purchasing Authority Purchase Order (STD 65).

Any irregularities or concerns regarding prime or SB/DVBE subcontractor responsibilities are to be immediately documented and reported to the State's Contract Administrator for further investigation. Information provided to the State's Contract Administrator includes, but is not limited to:

45. BIDDER DECLARATION/COMMERCIALLY USEFUL FUNCTION (CUF)

The DGS/PD, as the awarding department, has assessed the prime Contractor and subcontractor certifications and CUF during the solicitation evaluation process. Consequently, when executing purchase documents pursuant to this contract, it is not necessary for State departments operating under statewide contract purchasing authority to request the completion of a Bidder Declaration document or perform additional CUF analysis (Exception in Article 44). The department should make a notation of this within their procurement file.

46. TRADE-IN

Before any Trade-In can occur, ordering agencies must obtain approval for discarding their IT equipment from the DGS Surplus Property and Reutilization Program. In accordance with the State Administrative Manual (SAM), Chapter 5900, Information Technology-Disposal of IT Equipment, each agency must explore the reutilization of surplus IT equipment prior to requesting approval for recycling or attempting to use the equipment as a credit toward the purchase of new equipment.

This contract offers a Trade-In service for *similar* equipment, including other OEM equipment. This Trade-In service is for non-working equipment. It is not mandatory that the ordering agency use the Trade-In service offered. The equipment returned as part of the Trade-In service shall be environmentally responsibly managed. To the greatest extent feasible, the equipment is to be refurbished for resale or recycled.

See Attachment 3, Trade-In for more information.

47. ELECTRONIC WASTE RECYCLING

The Contractor will comply with the Electronic Waste Recycling Act of 2003 requiring retailers to collect a recycling fee from consumers on covered electronic devices, starting January 1, 2005. California Public Resources Code Section 42463(f) defines a "covered electronic device" as a video display device containing a screen greater than four inches measured diagonally. The fees must be shown on all purchase orders. See the code identified above for more information and exceptions to this definition or go to http://www.boe.ca.gov/sptaxprog/tax_rates_stfd.htm#6 for a breakdown of the fees.
